

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT OF THE PRESIDENT.

REPORT OF THE PRESIDENT.

To the Board of Education of the City of Chicago:

As President of the Board of Education, for the School Year 1879-1880, I have the pleasure of submitting the following report of the work of the Public Schools of the City during the year, and their condition at the close of the year:

INCREASE OF SCHOOL ACCOMMODATIONS DURING THE YEAR.

During the past year five new school buildings have been erected and opened, affording seating accommodations for 4,500 pupils, enabling the Board to dispense with rented buildings having seating accommodations for about 1,000 pupils.

The Raymond School Building was opened at the commencement of the School Year in September, 1879. This is a twelve room building, located on the southeast corner of Wabash Avenue and Eda Street, in the South Division of the city, with a seating capacity for 770 pupils. Before the close of the first month, every seat in the building was occupied, and we were obliged

to open double, or half-day divisions in the two lower rooms. By the completion of this building, the Board was enabled to give up the rented rooms in the basement of a church building on the corner of Dearborn and Thirty-sixth Streets, occupied during the previous year by the Dearborn Street School, for which we had paid \$300 per annum.

The Marquette School Building, located on the southwest corner of Wood and Congress Streets, in the West Division of the city, was opened at the commencement of the second week of the School Month of December. This is a fifteen room building with seating accommodations for 945 pupils. Upon the opening of this building, the Board was enabled to give up the rooms occupied by the South Paulina Street School, located in the basement of a church, on the corner of Monroe and Paulina Streets, for which a rental of \$660 per annum was paid. We were also enabled to give some relief to the Brown and King Schools, which were very much overcrowded.

The Armour Street School Building, located on the southeast corner of Armour and Ohio Streets, in the West Division of the city, was opened at the beginning of the School Month of February. This is also a fifteen room building with a seating capacity for 945 pupils.

The Oakley School Building, located on the southeast corner of Oakley Avenue and Ohio Street, in the

West Division of the city, was opened at the commencement of the Summer Term. This is a fifteen room building with accommodations for 945 pupils. By the opening of this building, the Board was enabled to give up the rooms rented for the use of the Hubbard Street School, at a cost of \$600 per annum, located on the corner of Hubbard and Lincoln Streets. This building is situated in a section of the city which will rapidly fill up, and although there were but eleven rooms occupied during the Term, it will not be long before every room in the building will be needed.

The West Division High School Building, located on the southeast corner of Morgan and Monroe Streets, in the West Division of the city, was also opened at the commencement of the Summer Term. This is also a fifteen room building with seats for 735 pupils. The West Division High School had, up to this time, been divided into two sections, a portion of the pupils attending at the Skinner School Building, and the balance attending at the Central High School Building. Upon the opening of the new building and the removal of the High School pupils from the Skinner School Building we were enabled to give up the rented rooms in the basement of a church at the corner of May and Harrison Streets, for which was paid a rental of \$420 per annum.

The following statements show, in a tabulated form, the increase of school accommodations during the year,

the rented buildings given up, and the rental saved to the city:

New Buildings Opened.	Seating Capacity.	Rented Buildings Given Up.	Seating Capacity.	Annual Rental.
Raymond.....	770	Dearborn Street.....	214	\$300 00
Marquette.....	945	South Paulina Street.	280	660 00
Armour Street.....	945	---	-----
Oakley.....	945	Hubbard Street.....	296	600 00
West Division High	735	South May Street...	200	420 00
Total.....	4,340		990	\$1,980 00

	Seats owned by City.	In Rented Buildings.	Total Sittings.
At close of School Year 1878-79.....	40,323	4,765	45,088
At close of School Year 1879-80.....	43,997	3,989	47,986
Increase	3,674	-----	2,898
Decrease.....	-----	776	-----

The discrepancy between the seating capacity of the new buildings opened during the year, and the increase in the number of sittings owned by the city, as shown in the above statements, arises from the fact that during the year the Old Scammon (brick) School Building, located on property belonging to the School Fund, on West Madison Street near Halsted, was sold and torn down, and the four room frame building was removed to the High School lot, and occupied for storage and other uses. The ground occupied by these buildings was leased for business purposes, and will be improved during the coming year.

Two twelve room buildings, having a seating capacity for 756 pupils each, are rapidly approaching completion, and will be ready for use at the beginning of the School Year in September. One of these buildings is

located on the northeast corner of Oak Street and Milton Avenue, in the North Division of the city, and will be known as the Oak Street School; the other is located on West Thirteenth Street, between Centre Avenue and Throop Street, in the West Division of the city, and will be known as the West Thirteenth Street School. The opening of this latter building will enable the Board to give up the rooms occupied during the past year by the West Fourteenth Street School, No. 2, located in the basement of a church building on West Fourteenth Street, near Centre Avenue, for which we have been paying a rental of \$600 per annum.

SCHOOL SITES PURCHASED.

The following school sites have been purchased during the year:

North Division—On the northeast corner of Oak Street and Milton Avenue, 100 x 168½ feet, at a cost of \$11,500; on the northwest corner of Hammond and Eugenie Streets, 200 x 125 feet, at a cost of \$8,500; and on the southwest corner of Huron and Franklin Streets, 162 x 100 feet, at a cost of \$13,460.

South Division—On the southeast corner of Wallace and Thirty-fifth Streets, 200 x 125 feet, at a cost of \$3,500; on the southeast corner of Twenty-seventh and Wallace Streets, 200 x 125 feet, at a cost of \$8,500.

West Division—On West Thirteenth Street, between Center Avenue and Throop Street, north front, 175 x 125 feet, at a cost of \$4,550; on the southeast corner of

Walnut Street and Kedzie Avenue, 209 x 150 feet, at a cost of \$5,000; and on West Jackson Street, between California Avenue and Francisco Street, south front, 200 x 121 feet, at a cost of \$5,950.

NEW BUILDINGS UNDER CONTRACT.

Contracts have been let for the erection of School Buildings in the following described localities:

North Division—A fifteen room building corner of Hammond and Eugenie Streets, which will be ready for use near the close of the Fall Term.

South Division—A fifteen room building on the corner of Wallace and Thirty-fifth Street; a twelve room building on corner of Thirty-fifth and Lincoln Streets; and a fifteen room building on the Cottage Grove School lot. Plans are also being prepared for a fifteen room building on the corner of Twenty-seventh and Wallace Streets.

West Division—A fifteen room building on the corner of Walnut Street and Kedzie Avenue.

PER CENT. OF SCHOOL ACCOMMODATION.

Upon the completion of all of the above described buildings, the city will have supplied seating accommodations for $37\frac{7}{10}$ per cent. of all children of school age, (between 6 and 21 years,) provided every seat is occupied.

The following statement shows the per cent. of

Report of the President.

school accommodations which will then be afforded in each Division of the city:

	North Division.	South Division.	West Division.	Entire City.
For all between 6 and 21 years....	35 $\frac{1}{2}$	46 $\frac{1}{2}$	33 $\frac{1}{10}$	87 $\frac{7}{10}$
For all between 6 and 16 years....	56 $\frac{1}{2}$	66	47 $\frac{1}{2}$	53 $\frac{3}{10}$

INCREASE DURING LAST DECADE.

The following statement exhibits the increase in the Enrolment, Membership, and Attendance of Pupils, and in the Number of Teachers employed in the Public Schools of the city during the last ten years, which furnishes the strongest argument for liberal appropriations for the increase of the school accommodations of the city, in order that the city may be able to provide for all who seek admission to the schools:

* The falling off during the School Year 1871-72 was occasioned by the Great Fire of October, 1871, which caused a large number to remove temporarily from the city.

† The decrease in the number of Teachers reported at the close of the School Year 1876-77 was occasioned by the depressed financial condition of the city, which called for a large reduction in salaries, and also a reduction in the number of Teachers.

From the above, it will be seen that the increase in Membership and Attendance, and in the Number of Teachers has been, during the last ten years, about

sixty per cent., notwithstanding the fact that we have been suffering during all this time from a lack of school accommodations for those seeking admission to the schools, in consequence of which very many who would have attended the Public Schools, have been sent either to Parochial or Private Schools.

At the close of the present School Year there were 101 half-day divisions, with a membership of 5,716, and there were also at the same time about 4,000 in attendance in rented buildings, most of which were very poorly adapted for school use; they were, however, the best that could be secured in the neighborhoods where needed.

GERMAN INSTRUCTION IN THE GRAMMAR SCHOOLS.

The study of German in the Grammar Schools, under the supervision of Dr. G. A. Zimmermann, has made commendable progress. It was introduced during the year into the Foster and Pickard Schools, and petitions are before the Board for its introduction into the Jones, Nickersonville, Raymond and Marquette Schools. The number pursuing the study in the Grammar Schools at the commencement of the year was about 1,900, and at the close of the year about 2,400.

SCHOOLS FOR THE DEAF AND DUMB.

The Appropriation made by the State Legislature during the Session of 1879 for the support of Schools for the education of the Deaf and Dumb children of the City of Chicago and vicinity, has enabled the Board to

extend the sphere of these Schools during the past year. A School for the instruction of the Deaf and Dumb has been carried on, under the direction of the Board, since January, 1875, and until the commencement of this School Year there had been but one such school in the city. In September, 1879, one school was established in each Division of the city, and a fourth school for the instruction of the more advanced pupils was organized in a room in the News Boys' Home, in the South Division of the city. The report of the Committee on Deaf Mute Schools, to be found elsewhere, gives a detailed statement of the management and condition of these schools.

CASH RECEIPTS DURING THE SCHOOL YEAR.

The actual cash receipts during the year for the current expenditures of the schools and for providing additional school accommodations have been as follows:

On account of School Tax Fund.....	\$1,025,116 48
On account of State Dividend.....	102,367 30
On account of Rental of School Fund Lands, Interest on Investments of School Fund, etc.....	124,636 16
From Miscellaneous Sources.....	1,949 50
Total Cash Receipts for the Year.....	\$1,254,069 44

For a detailed statement of these items of receipts, I would refer you to the Report of the Committee on Finance and Auditing, and to the Financial Statistics in the Appendix.

TAX LEVIES FOR FISCAL YEAR 1880.

The amount of City Tax levied for all Purposes was.....	\$3,889,126 98
Of this amount there was levied for School Purposes.....	887,901 44
The per cent. of the School Tax upon the entire Tax Levy was	22.4

EXPENDITURES DURING THE SCHOOL YEAR.

The following statement exhibits the amount expended on account of the Public Schools of the city during the past School Year, and, also, during the previous School Year, 1878-79.

SCHOOL FUND PROPERTY.

The majority of the leases of land belonging to the School Fund of the city, located within the city limits, expired on the eighth day of May, 1880. On much of this property valuable improvements had been placed during the terms of the expiring leases; these leases provided for a valuation, at their expiration, of the land and of the improvements thereon, and the option

was given first to the city to purchase the improvement, and in the event of the city declining to purchase the improvements the lessees had the privilege of purchasing the land. It was found, however, that notwithstanding this provision of the old leases given by the city twenty-five years ago, there were no funds which could be used for the purchase of improvements, and also that there was no authority for such purchase, and the Board did not desire to dispose of the land; consequently an unusual amount of labor and responsibility has devolved upon the Committee on School Fund Property during the year, and while great credit is due to the Committee and the Attorney of the Board for the diligence with which they have attended to these onerous duties, the Board is under special obligations to the Chairman of the Committee, E. G. Keith, Esq., who has worked indefatigably to effect an amicable settlement with the old lessees, and at the same time protect the interests of the city. As a result of their labors, terms for new leases had been agreed upon with many of the lessees at the close of the year, and negotiations were pending which have since resulted in a settlement with all of the lessees, at valuations which will materially enhance the revenue of the School Fund.

CONCLUSION.

I cannot close this report without paying a just tribute to those associated with us in our labors in the cause of education. Duane Doty, Esq., our late Superintendent, and his worthy assistant, Edward C. Delano, Esq.,

have labored earnestly and assiduously in maintaining the reputation of our Public Schools during the past year. It seems superfluous to extol the services of our worthy Clerk, Shepherd Johnston, Esq., and the Building and Supply Agent, James Ward, Esq., who have been faithful employes of the Board in these positions for so many years, and whom I trust will remain in their respective positions for many years to come. Due praise should also be awarded to our Book-keeper, Mr. M. B. Hicks, and our Assistant Clerk, Mr. John A. Guilford, the latter of whom has grown up in the service of the Board.

PHILIP A. HOYNE,
President.

REPORT OF THE SUPERINTENDENT.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of the City of Chicago:

The following report upon the Public Schools of the city for the School Year of 1879-80, is respectfully submitted. During no period since my connection with this department has the teaching of pupils progressed in so thorough and satisfactory a manner as during the year now closed. The great and important questions with citizens are—How are my children taught? Is their time put to the best possible use in fitting them to enter upon life's work? In a land like ours, a land capable of supporting half the present population of the earth, the infancy of whose development is shown in the facts, that the State of Illinois has acreage enough easily to grow the entire wheat product of the country for 1880, and that Missouri could in like manner grow the entire corn crop of that year, and that Texas has good cotton lands enough to grow twice the cotton crop of 1880, that Kansas can easily raise all the beef needed for fifty millions of people, that the mining industries of the country are barely touched, and that manufacturing has only begun—in such a land the best work a generation can do is the work it does for its children. Each year draws nations into nearer relationship, and our

competitors are no longer our neighboring counties, but the nations beyond the seas. Hands trained to do, joined with intelligence trained to know, will alone ensure the highest prosperity of those who are to come after us.

The following statistics will be found of interest. Financial details and information relating to the work of regular committees will be found in the reports of the several Standing Committees:

SCHOOL STATISTICS.

SCHOOL CENSUS.

	School Census of 1876.	School Census of 1878.	School Census of 1880.
Total Population of the City.....	407,661	436,781	491,516
Between the Ages of 6 and 21 Years..	110,184	123,115	137,035
Between the Ages of 6 and 16 Years..	78,486	87,819	97,181
	On Basis of School Census of 1878.		On Basis of School Census of 1880.
Number of persons of School Age, or between the ages of 6 and 21 years..		123,115	137,035
Total number at Work for Wages, or left School not to return.....	24,034		30,080
Number attending Private Schools...	18,647		22,506
Average Daily Membership in the Public Schools	41,569		45,076
Total.....		84,250	97,662
Showing that there were not in Regular Attendance during the Year at either a Public or Private School.....		38,865	39,373
The Total Enrolment in the Public Schools during the year exceeded the Average Daily Membership.....		13,540	13,889
Number not Enrolled in any School, either Public or Private, at any time during the year.....		25,325	25,484

From these figures it will be seen that after making allowance for every pupil enrolled during the year either in the Public or Private Schools, and for all who have at some time attended school but who have completed all the education they would probably under any circumstances obtain, there are still over 25,000 of school age, or between 6 and 21 years of age, who have not received any instruction during the year.

SCHOOL ACCOMMODATIONS.

At the close of the School Year there were 43,997 school sittings in buildings owned by the Board of Education and 3,989 in buildings rented for school purposes. The population of the city is increasing at the rate of

25,000 per annum and this increase alone requires four large new buildings every year. For the next five years the city ought to build seven or eight buildings a year in order to do away with rented rooms, and half day schools.

TEACHERS.

At the close of June, 1879, there were 851 Teachers, and at the close of June, 1880, there were 898, showing an increase of 47 for the School Year. The following is the Schedule of Salaries adopted for the Fiscal Year 1880:

SUGGESTIONS.

I respectfully submit a few suggestions upon matters which the Board may be called upon to consider at any time.

THE APPOINTMENT AND TRAINING OF TEACHERS.

In a city like this it will always be a measure of economy to maintain a Normal Department for the special training of those who intend to enter upon the work of teaching. Without the training afforded by such an institution, individuals get into school rooms and acquire experience at a fearful cost to pupils, for such apprentices learn how to do their work, if they learn it at all, at the expense of the wasted time and opportunities of their pupils. Present modes of examining teachers are very faulty; some literary attainments only are required, and the average School Inspector thinks nothing more is necessary, while every capable School Manager knows that the mere possession of knowledge implies no ability whatever to teach a school successfully. I hope that the day will come when our school systems will not be regarded as eleemosynary institutions—poverty, misfortune, and need of employment are not necessarily qualifications for teaching. Men have a perfect right to be liberal in the expenditure of their own means for charitable or other purposes, but no such right can be found among the duties of Trustees of Public Funds. Americans have not all learned to distinguish between a private possession and a public trust. In the selection of a teacher the only

question that should be considered is—What is best for the fifty children who are to be taught? If all sympathy, generosity, charity and solicitude could only be felt and exercised for the fifty trusting, helpless, and dependent children, who have everything at stake, instead of for some individual needing the salary paid, there would be a marked improvement in schools everywhere. Natural aptitude is worth just as much and no more for teaching, than it is for building a cathedral, editing a newspaper, managing a railroad, or prescribing for the sick. The argument for a Training School for teachers is the same that makes training, practice, and experience valuable in other fields of human effort. I trust the day is not distant when this city will maintain a good Normal School. The expense of its maintenance will be trifling compared with the benefits it will confer upon our schools.

HIGH SCHOOLS.

The pupils between fourteen and eighteen years of age, who are pursuing the more advanced studies are classed in the department known as High School. This department is an essential feature in any properly organized system of schools, and is worth many times its cost in the effect it has on the lower grades. In the history of education we find the higher institutions existing first and the system of lower schools made possible by the influence of the higher. Really, the University is the *basis* of our Common School System, and without the higher, the lower schools would amount

to little. We should have a good Classical School here in which to prepare students for the literary courses of our best Universities. The discontinuance of our Central High School was a mistake and one that will be corrected by enlightenment.

Ignorant men, and politicians in the American sense, are ever attacking High Schools, and appealing to the masses to cripple them, but the enlightened sentiment of the community will no doubt sustain these schools, and gradually, but surely, place them upon a better footing.

At least two more buildings on the West Side should be set apart for this department. The true policy is to erect buildings specially adapted for High School work.

SCHOOL GROUNDS.

While there has been some improvement of late in our school grounds, the great majority of our lots are masses of cinders, with hardly a redeeming feature in the way of ornamentation. The city permits no expenditure in this direction. Had it not been for the liberality of the Building and Supply Agent, who has planted hundreds of shade trees on school lots at his own expense, our school grounds would closely resemble rectangular sections of Sahara. The school buildings and grounds should be among the most attractive places in a community. Our children spend many years in and about them, and the beauties with which school property

might be easily adorned would exert a most salutary and refining influence upon them.

RE-ORGANIZATION.

In my opinion the office force of the Board could be arranged on a far better basis than the present one. The Superintendent of Schools needs two or three more Assistants as much as he needs the one he has, if it is intended to properly supervise the teaching in our schools. In New York and Boston there is an Assistant Superintendent of Schools for every 100,000 inhabitants. The examinations for promotion from grade to grade should be conducted by such Assistants, and the entire time of a Superintendent should be given exclusively to school work and the arrangement of such work, and he should have no care of the business concerns of the Board. A Secretary and Business Manager should be appointed who should have charge of the business affairs of the Board, and the sooner a competent man is appointed for this purpose the better it will be for the city. No business man would for a moment try to conduct his business on the plan now in use by the Board, and one which could so easily be changed for the better. Every one who reflects upon the subject, readily sees that a Board like ours is an administrative body and not a legislative one; yet, like some other Boards of Education, it tries to transact its administrative business in legislative trammels. I have often said that our Board is not only too large, but it has a dozen more committees than there is any necessity for; in fact this multipli-

cation of committees simply interferes very much with an intelligent comprehension of the business in hand. Instead of having one Committee on Finance that would more intelligently administer the fiscal concerns of the Board, there are several committees entrusted with portions of this department, and as a result, each man gets a notion of some particular phase of the finances of the Board, but does not and cannot know the subject as it would be understood by one committee having it all in charge. We have the absurdities of Committees on Drawing, German, and Music, but no Committees on Reading, Arithmetic, and Writing, matters of far greater importance. One Committee on Text Books and Course of Study should have this whole matter in hand. The affairs to be attended to by a Board are comprised under two distinct departments, Schools and Business—the Schools require two Committees, one on Teachers, and one on Text Books and Course of Study; the Business department needs three Committees, namely: On Finance, on School Property, and on School Fund Property. These suggestions are offered as the result of fifteen years of careful observation as a school officer, and after much attention to subjects to which the suggestions relate.

CONCLUSION.

Amid the cares, anxieties, and perplexities incident to managing a system of schools in accordance with the requirements of the best modern methods, I have had

the aid, sympathy, and co-operation of my associates and subordinates. My assistant, Mr. Delano, is an excellent officer, who has always given his undivided attention to the duties assigned him, and has discharged them to the entire satisfaction of all. Mr. Shepherd Johnston, for nearly a quarter of a century connected with the Board, by his fidelity to every trust, and by his accuracy and intelligence, has made a most valuable officer. For five years I have lived in and for our Public Schools, and worked unceasingly for their welfare. Fifteen years of experience in school management, and ample opportunities for study and observation of the school systems in this country, and a large correspondence with prominent educational men in every State of the Union, and in almost every country of the civilized world, have afforded me many professional advantages which, I trust, have been of some value in the organization and administration of the Chicago Schools. That our Schools may maintain their present high standard, or improve it, is my heartfelt wish, as one of their firmest friends and supporters.

DUANE DOTY,

Superintendent.

In Memoriam.

DIED—July 25, 1879, after a very brief illness, Miss CHRISTINA PEATTIE, Assistant in the East Kinzie Street School.

Miss Peattie was a graduate of our Normal School, Class of 1871, and entered upon her work in the Schools immediately upon her graduation and remained in service till the last day of the School Year.

DIED—August 15, 1879, Miss NORA B SMITH, Assistant in the North Clark Street School.

Miss Smith was a graduate of the Central High School, Class of 1873, and entered upon her work in the Public Schools of the City, in December, 1873. She was a faithful and successful teacher, but was finally compelled by ill health to give up her labors in the Schools.

DIED—September 12, 1879, Miss MARION S. FULLARTON, Assistant in the Washington School.

Miss Fullarton was a graduate of our Normal School, Class of 1874, and commenced her labors in the Public Schools of the City, in September, 1874, and remained in the service of the City till February, 1879, with the exception of one year, when she was employed in the Cook County Normal School, at Englewood. Her work, though comparatively brief,

was eminently successful. In February, 1879, she obtained a leave of absence, and went to Denver, Col., hoping the change of air would arrest the progress of the disease which had been wearing upon her for some time, but the change was unavailing.

DIED—December 27, 1879, **MRS. SOPHIE LIEB CORNIENTI**, Teacher of German in the South Division High School.

Mrs. Cornienti entered upon her work as Teacher of German in our Public Schools, in September, 1869, and remained in the service of the City till June, 1872, and again resumed her duties in September, 1875, but was obliged early in the School Year to retire from her work, owing to failing health.

DIED—March 10, 1880, **MISS AURA A. CULVER**, Assistant in the Marquette School.

Miss Culver entered upon her duties in the Public Schools of the City, in October, 1872, in the Scammon School, was afterward transferred to the Brown School, and in November, 1875, was elected Principal of the South Paulina Street School. She remained in charge of this School till it was absorbed by the opening of the Marquette School, which occurred but a few months before her death.

DIED—July 15, 1880, **MISS ANNA J. CALDWELL**, Assistant in the Hayes School.

Miss Caldwell was a graduate of our Normal School, Class of 1872, and entered upon her duties in September of the same year. In September, 1873, she became

connected with the Hayes School, and remained in this School proving herself one of its most successful Assistants, till failing health compelled her to give up, toward the close of the Winter Term of 1880.

DIED—August 26, 1880, Miss MARGARET L. GOGGIN, Assistant in the Pickard School.

Miss Goggin was also a graduate of our Normal School, Class of 1875. She entered upon her duties at the Pickard School, in February, 1876, and remained in this School till failing health compelled her to give up her work in March, 1880.

It is but just to say of all the Teachers whose names are here recorded, that they labored in the cause of education with patience, earnestness, and sincerity of purpose, and their fidelity to the important trust committed to them is worthy of commendation and of recognition.

REPORTS OF
STANDING COMMITTEES.

REPORT OF COMMITTEE
ON
BUILDINGS AND GROUNDS.

To the Board of Education of the City of Chicago:

When your present Committee on Buildings and Grounds assumed their duties they did so with the expressed determination to recommend to your Board the purchase of sites and the erection of a sufficient number of buildings to accomodate all the pupils that might present themselves for enrollment. They have signally failed in their endeavors. Their failure, however, was not due to any lack of promptness on the part of the Board in adopting their recommendations, but to the almost limitless demand for increase school accommodations by our rapidly growing city.

Although the appropriation by the City Council for building purposes during 1880, was seemingly liberal, this failure to meet the demand demonstrates the necessity for still more liberal appropriations in the future; and in the face of the fact that a larger number of buildings are under contract, or have been completed during the School Year of 1879-80, than during any previous year of the history of the city, we are making but little progress toward displacing rented buildings, or dispensing with double divisions in our schools.

We learn from the report of the Committee for last year that they "derive great satisfaction from knowing that with the completion of all buildings in process of construction, the number of rented buildings in the city will be reduced from nineteen to twelve;" those buildings have been completed, and still your present Committee reluctantly bequeath to their successors seventeen rented buildings, seven of which, however will be vacated when the new buildings, now under contract, are ready for occupancy. As the natural annual increase of that portion of our population which should become pupils in our schools is about 4,000, requiring five school buildings, there should not be less than nine buildings erected each year until there is not a Public School in the city occupying a rented room.

SITES.

On the recommendation of the Committee, the Board have requested the Common Council to purchase the following described sites, viz.:

1879.	
Sept. 11.	Lot 200 x 125, corner of Wallace and Thirty-fifth Streets, at a cost of..... \$ 3,500
1880.	
Jan. 8.	Lot 209 x 150, corner of Walnut Street and Kedzie Avenue, at a cost of..... 5,000
Jan. 29.	Lot 200 x 121, on West Jackson Street, near California Avenue, at a cost of..... 5,950
Jan. 29.	Lot 200 x 125, corner of Hammond and Eugenie Streets, at a cost of..... 8,500
M'ch 11.	Lot 162 x 100, corner of Huron and Franklin Streets, at cost of..... 13,460
April 29.	Lot 200 x 125, corner of Twenty-seventh and Wallace Streets, at a cost of..... 8,500
June 30.	Lot 53 $\frac{1}{4}$ x 167 $\frac{1}{12}$, on Evergreen Avenue, near Robey Street, for enlargement of Wicker Park School Lot, at cost of 2,000

The initiatory steps have been taken toward the erection of buildings on all the above sites, with the exception of the sites on West Jackson Street, and on Evergreen Avenue. The only remaining unoccupied site is the one on Lime Street, which is not considered suitable for school purposes.

BUILDINGS.

At the commencement of the School Year, September 1st, 1879, the following buildings were approaching completion:

Raymond,	Opened for Pupils	Sept. 1, 1879,	Seating Capacity,	756
Marquette,	" " "	Dec. 1, 1879,	" "	945

Total.....			\$227,631 75	6,048

Plans and specifications have been prepared, on the recommendation of the Committee, for the following named buildings:

1880.	Size.	Location.	Seats.
May 21.	12-room,	Huron and Franklin Streets.....	756
June 24.	15-room,	Twenty-seventh and Wallace Streets.....	945
			1,701

Of the above described buildings now under contract, the Oak Street, and West Thirteenth Street will be ready for occupancy in September; the rest will be ready early in the Spring of 1881.

There still remains unexpended, of the appropriations made by the City Council for buildings and sites, the following amount:

Cash in Treasury.....	\$ 64,734 25
Appropriation of 1880, unexpended.....	194,277 00

Your Committee earnestly recommend the purchase of new sites and the erection of buildings as rapidly as money for that purpose accumulates in the treasury.

RENTED BUILDINGS.

The following Schools in rented buildings have been closed during the year, in consequence of the opening of new school buildings:

- Dearborn Street, by opening of Raymond School.
- Hubbard Street, by opening of Oakley School.
- Skinner Branch, on May Street, by opening of West Division High School.
- Paulina Street, by opening of Marquette School.
- West Fourteenth Street, No. 2, by opening of West Thirteenth Street School.
- Elizabeth Street Branch on Fulton Street, by enlargement of Elizabeth Street Building.

The following is a statement of rented buildings occupied by Schools, now under lease to the Board, and showing what schools can be closed upon the opening of new buildings now in course of erection:

Name of School.	Premises Occupied.	Annual Rental.	Lease Expires.	Seating Capacity.	Will be Closed on Opening of.

PERMANENT IMPROVEMENTS.

The following is a list of improvements of a permanent character made during the year:

Clarke School, putting in new steam coils, and repairing boilers, at a cost of.....	\$2,690 00
Brown School, putting in steam pipes and coils in new building, and connecting same with boilers of old building, and enlarging boiler house of old building, at a cost of.....	4,293 04
Franklin School, putting in steam pipes and coils in old building, and connecting same with boilers of the new building, and enlarging boiler house of new building, at a cost of...	3,893 00
Skinner School, erection of brick out houses, and fitting up water closets in same complete, at a cost of.....	2,215 48
Newberry School, erection of brick out houses, and fitting up water closets in same complete, at a cost of.....	2,168 09
Cement paving in basements of Jones, Clarke, and Brown School Buildings, at a cost of.....	1,319 69
Tuck pointing Brown, Foster, Normal, and Moseley School Buildings, at a cost of.....	1,844 46

As the buildings increase in number, and require additional repairs on account of age, the expenses attending this part of the work of the Committee will rapidly increase.

SCHOOL ACCOMMODATIONS.

The following statement shows the seating capacity of the permanent buildings, 68 in number including those in process of erection, and the seventeen buildings rented for school purposes:

Total seating capacity of Schools at close of School Year 1878-79	45,399
Seating capacity of buildings since opened, including rented buildings, and buildings in course of completion	12,400
Less seating capacity of Rented Buildings to be closed and pupils transferred to new buildings as opened.....	3,335
Net increase of seating capacity.....	9,065
Gross seating capacity when all new buildings are opened	54,464
Present total enrolment of Pupils	53,462
Pupils for whom there is no present accommodation, except in half day schools.....	3,120
	56,582

Showing that if all the new buildings now in process of erection were open, the entire seating capacity would be insufficient to accommodate the present pupils enrolled, to say nothing of the natural increase before mentioned.

Your Committee desire to express their satisfaction with the services rendered by those employees who have assisted in executing the orders of the Board which have emanated from the Committee.

Very Respectfully,

A. C. BARTLETT,
JOHN C. RICHBERG,
M. A. DELANY,

Committee on Buildings and Grounds.

Your Committee would recommend the revision of so much of the Rules and Regulations as relates to the manner in which the Estimates of the Annual Expenditures of the Board are prepared, so that the Estimates as prepared by the several Standing Committees shall be referred to the Committee on Finance and Auditing for revision, before being acted on by the Board.

Your Committee direct the attention of the Board to the importance of devising means to enable the expenditures of the Board to be paid in cash, instead of as at present by warrants, drawn against the taxes to be collected, which entails a loss of from 5 to 10

per cent. And as one of the means to be employed to secure this desirable end, your Committee would urge the importance of adopting a strict economy in the expenditure of the amount annually appropriated as a School Tax Fund.

Respectfully submitted,

REPORT OF THE COMMITTEE

ON

GERMAN.

*To the Honorable the Board of Education of the City
of Chicago:*

Your Committee on German presents herewith its Annual Report for the year ending July 1, 1880.

Probably never before were circumstances less favorable for this branch of instruction than at the beginning of the last Scholastic Year. On the 12th of June, 1879, the Board of Education adopted a series of rules in relation to Optional Studies, the most important of which provides as follows: "Whenever in any school, the whole number in any grade, pursuing any one of the Optional Studies, shall fall below twenty, such study shall be discontinued in that grade of the school."

It was assumed by the friends of the Optional Studies that this rule would stimulate the teachers to greater exertions in endeavoring to secure pupils, and tending to reduce the force of teachers it would operate as a measure of economy. In neither respect has the rule had the desired effect, and your Committee feels constrained to say that, so far as the study of German is

concerned, it has worked injuriously, because it has interrupted the study in intermediate grades, and thus prevented the pursuit thereof in a manner by which alone proficiency can be secured, and which has heretofore enabled the pupils admitted to the High Schools, to enter advanced classes in German in such Schools. The enforcement of the rule has suspended the study of German in the eighth grade of all the schools except six, the whole number of pupils in that grade in some schools being less than twenty. In other schools the study was suspended even in the seventh grade. But the effect of the rule was still more detrimental in another respect. Since our population is always fluctuating and many people change their residences, it happened that at one time the number of pupils who desired to study German was above twenty in a grade, at another below, so that German was dropped and taken up again several times during the year in that grade. That such interruptions must work great injury to any branch of study will be obvious to everybody. The enforcement of this rule has thus deprived us of about 350 pupils and your Committee would respectfully urge that it be speedily rescinded.

In spite of the difficulties here set forth, your Committee nevertheless finds itself in a position to report a most gratifying progress in the branch of study under its charge. At the beginning of the last school year German was taught in eighteen Grammar Schools. This number had been stationary for several years

prior thereto, the Board of Education having failed to introduce the study in any school since the year 1877. During the last year, however, this Board, recognizing the importance of the study of German, introduced the same, upon the prayer of the requisite number of parents, in the Pickard and Foster Schools, and since January last, the language has been taught in these schools with great success. During the School Year ending June 27, 1879, the highest number of pupils who availed themselves of instruction in German in the different schools of this City was 2,308; during the year last past the highest number was 3,004, an increase of 696, and, but for the loss of 350 pupils occasioned by the enforcement of the above rule, the increase would be 33 *per cent*.

In this connection we wish to correct an error so often expressed, concerning the percentage which the whole number of pupils taking instruction in German bears to the number attending our Public Schools. It is assumed that, because the percentage is so very small, the instruction is a failure. But those who employ this argument in their opposition to the study of German in the Public Schools, lose sight of the very important fact, that under the rules of the Board the study is confined to the High Schools and to the Grammar grades of twenty District Schools. The total membership of pupils in the Grammar grades of these Schools, according to the statistics of the month of January, 1880, as shown in detail in the accompanying table,

was 5,504; of this number, 2,380 availed themselves of the study of German, making about 43 *per cent.* of the total number having a choice. These figures present a percentage equal to that of other cities in this country in which German is much more favored as a branch of study in the Public Schools.

During the last year twenty-one teachers were employed in this branch of instruction, the gross amount of salaries paid them being \$10,068. In one case the extra expense of a German teacher was entirely saved. In the Calumet Avenue School, originally a primary feeder of the Moseley School, but during the past year having Grammar as well as Primary Grades, the German classes were intrusted to a teacher who had had passed a satisfactory examination both as a teacher of English and of German and who, at the same time, had charge of an English half-day division, requiring,

therefore, no *extra pay* as a teacher of German. This experiment gave from the beginning, September, 1878, the fullest satisfaction; the number of pupils rapidly increased, eighty *per cent.* of all the Grammar pupils taking part in the instruction. In view of this and of the further fact, that we can now obtain from our own Schools, teachers who are equally competent to teach in all the English and German branches, we think the time has come to begin with a gradual change of the system, a change which would soon do away with the additional expense for instruction in German. In order to practically inaugurate this change, we would suggest that in some Schools to be selected by the Board, *one German-English Teacher, who shall have passed an examination in both languages, with the qualifications of a class teacher, be placed in charge of one room on each floor of such schools, and whose duty it shall be to give instruction in German on that floor in addition to teaching some of the regular classes in her room. While the German-English Teacher is engaged in conducting the German recitations, the teacher in whose room the German class may be will have charge of the room of the German-English teacher and conduct the class recitations in other branches.* It will be readily seen that were this system fully introduced, the additional expense for the instruction in German would be wholly obviated, and we might expect the same beneficial results as have been obtained in St. Louis, where this system is in full operation.

During the last year we were deprived of a teacher who deserved special mention. Mrs. Sophia Cornienti, teacher of German at the South Division High School, died December 27, 1879, after a long sickness. This lady was connected with our schools for a period of fourteen years. She always proved herself an active and efficient teacher, being possessed in a peculiar degree of the faculty of gaining the love of her pupils and of arousing their enthusiasm for study. She had complete mastery of several modern languages, and having had large experience as a writer for the European press, was enabled to bring to her work a breadth of culture and fertility of illustration seldom equalled.

As an evidence of the interest taken by both parents and pupils in the study of German we wish to make mention of the fact, that at the annual exhibition in the Pickard School, in June last, a number of parents, whose children take part in the study of German, made up a purse and presented the same to Dr. G. A. Zimmermann, the Special Teacher of German, with instructions to distribute it as premiums among the five best scholars, thus stimulating the ambition of the pupils.

There remain in the hands of the Committee petitions requesting the introduction of the Study of German, from citizens and patrons of the following School Districts, to-wit.: Nickersonville, Jones, Marquette and Raymond. We hope that the Board may at an early date do justice to the petitioners and grant their prayer.

In conclusion, we deem it our duty to express our gratitude to Dr. G. A. Zimmermann, the Special Teacher of German, for the able and efficient manner in which he has conducted the study. Much of the success which has attended the same during the last two years is due to his zealous and unceasing efforts to encourage the study, as well as to the strict discipline which he has constantly maintained among the corps of teachers placed under his charge.

REPORT OF COMMITTEE
ON
DEAF MUTE SCHOOLS.

To the Board of Education of the City of Chicago:

GENTLEMEN — Your Committee on Deaf Mute Schools respectfully submit this its first Annual Report.

During the last School Year a Standing Committee of your Board was appointed to aid in the establishment of Schools for the education of Deaf Mute Children, as a distinctive portion of our free Public School System, under the direct control of your Board. Previous efforts in that direction had been made from time to time with varying degrees of success, but from the fact that the State in 1879, appropriated the sum of \$15,000 for the maintenance of Deaf Mute Schools in this City under the control of your Board, attention was directed more particularly to the education of these unfortunate children, and, that it might receive special attention, your Committee was formed.

Considering that the system was to a certain extent an experiment, we have every reason to congratulate your Board for the measure of success which has crowned its efforts.

At the commencement of the School Year your Committee found that a School for the education of Deaf Mutes had been previously carried on for some time under the care and management of Professor P. A. Emery, whose individual efforts had brought it into existence, and the City had furnished the funds necessary for its maintenance; it was carried on as a day school, the pupils residing at home and attending the school during school hours.

This School was then located in the News Boys' Home, on Quincy Street, the use of a room in that building having been leased by your Board at a rental of thirty dollars per month.

Your Committee found upon taking charge of this School that the Fund appropriated by the State would be chargeable with the expense of this lease and sought to be released from that burden, but the Trustees of the News Boys' Home would not consent to a cancellation of the lease, so that the expense for the year was \$300 greater than it otherwise would have been, could we have been released from that obligation and removed the School to one of our regular school buildings, where we would have no rent to pay.

Your Committee decided therefore at the outset to continue the School at the News Boys' Home for pupils that had made some advancement under previous instruction, and to open a branch in each Division of the City for the reception and instruction of primary

pupils. Your Committee accordingly opened a room in the Third Avenue School building for the South Division, and another primary in the old Scammon School building for the West Division; in the North Division, owing to the lack of room in the regular school buildings, we were obliged to lease a room in a private building on the corner of Hammond and Menominee Streets at a rental of six dollars per month.

The School at the News Boys' Home was placed in charge of Miss Grace D. Emery as teacher, and the School on Third Avenue was placed in charge of Mr. J. E. Gallagher, a graduate of the Illinois Institution for the Education of the Deaf and Dumb, and Mrs. M. A. Emery, a teacher of many years experience, was given charge of the School in the West Division, and the School on the North Side was placed in charge of Mr. D. W. George, a graduate of the National College for Deaf Mutes, of Kendall Green, near Washington, D. C.

All these Schools were placed under the control and supervision of Mr. P. A. Emery, as Principal. Mr. Emery is a teacher of many years experience and ranks among the ablest in this country, and his duties as Principal, although the school rooms were located at distant points from each other, were performed with a zeal and untiring energy which is worthy of our highest commendation. In connection with his duties as Principal he gave personal attention to the conducting of recitations and to class work, and nearly all his

time aside from school hours has been spent in searching the City for the purpose of finding deaf mute children and inducing their parents to send them to school, which, strange to say, is a very difficult thing to do in many cases; some cases have come under the notice of your Committee where it was impossible to get the parents to send the children to school either here or elsewhere.

As the instruction of deaf mutes is nearly all individual work, especially in the primary grades, our experience thus far has been that from 8 to 12 or 14 pupils is as many as any one teacher can manage efficiently, the number varying according to the ages and degrees of intelligence of the pupils and the age at which deafness took place.

We have had 46 pupils in these Schools during the year ending June 30, 1880, 29 of whom were boys and 17 of whom were girls. But upon the re-opening of the Schools in September the number was largely increased, and your Committee decided to open an additional school room in the Division and Cleaver Street School, which was placed in charge of Mrs. M. A. Woodworth.

The number of pupils during the month of September, 1880, increased to 52, and there are several in the city who are to enter in October and others who would attend school if a room could be obtained in the vicinity of the Walsh Street or Foster Schools.

Your Committee have during the year received a great amount of correspondence from residents of the northern portion of the State who desire to send their mute children to our Schools, but as we do not undertake to care for and board the pupils, our replies to all such enquiries were, that we would receive their children as pupils, as the Act of the Legislature directed, but they would have to make their own arrangements for boarding the children here; the result was that not more than one or two children came from parts outside the city.

Nearly all who made enquiries had their children at the State Institutions of Illinois and Wisconsin, and in schools in Milwaukee and places in Michigan, and all of them were desirous of having them at or near Chicago, as being the most accessible point by rail in the Northwest. Some of them expressed great dissatisfaction at having their children in institutions which had grown too large, as the danger to their physical health was thereby increased, and after the burning of the Wisconsin Institution at Delevan, those whose children were at Jacksonville were somewhat alarmed, owing to the lack of water supply which was known to exist in Jacksonville.

The greatest difficulty we have had to contend with was the great distance most of our pupils have to travel in getting to and from the school rooms; being scattered all over the city, it was impossible to so

locate a school as to be near more than three or four of them; this caused irregular attendance in many cases, but the system which leaves the children under the care of their parents, and only keeps them in school while giving them instruction, is we believe, the best that can be devised; the instruction of the children under these circumstances can be commenced at the age of six years, as the instructors not having the care of the children except as day pupils, have no fears of encountering the many children's diseases which are the dread of large institutions, and on account of that danger nearly all large institutions have to fix an advanced age at which pupils can be received, most of them fixing the age at ten years, and during that period of a deaf child's life it forms many peculiar habits of an injurious nature and which afterwards prove to be serious obstacles in the way of the child's mental and moral development.

Although our schools have proved to be very successful, yet the difficulty occasioned by distance from the school is a very serious one, and is the primary reason for educating those children at boarding institutions, and many people who live but a few miles from the city, and many even inside the city limits prefer to send their children to an institution where they can remain all the time.

And in this view of the question we must hope that the State will not long delay the erection of an institu-

tion for this purpose in this City, as it will then be near a large number of children who can attend as day pupils, and many others will be obliged to remain at an Institution so located from Monday morning to Friday evening only, giving such the opportunity to be under home influence during the balance of the week, and it will be more accessible as a railroad center to the people of the northern part of the State than any other point in the State, and the children can be educated at less expense to the State, and the dangers attending a large and unwieldy institution will be avoided.

The following is a correct statement of the expenditures on account of Deaf Mute Schools for the School Year, 1879-80:

* Left the State.

† Per Pupil for the Year.

The plan upon which these Schools are conducted is entirely new in this Country. It has been tried in London, England, and has so far worked well, and bids fair to be very successful. As the system becomes better known, it is believed the Schools will become more popular with the parents of this class of pupils, and that the attendance will materially increase during another year. Many of the difficulties encountered at the outset have gradually disappeared, and the future promises much better results than have been accomplished during the past year.

Respectfully submitted,

M. A. DE LANY,
E. G. KEITH,
PAUL O. STENSLAND,
Committee on Deaf Mute Schools.
